# GLENDALE MEN RAPTORS

**The Glendale Raptors** completed the 2009-10 rugby season bowing out in the USA Championship Round of Sixteen to eventual second place finisher Belmont Shore. The Raptors completed the regular season with a record of eight wins and three losses. In addition, the Raptors played two post season exhibition matches against teams from Wales, the Welsh Warriors, a representative team from the Osprey's region, and Wales University Institute Cardiff, second runner-up finisher for all universities in the United Kingdom. The Raptors are engaging in off season conditioning during the summer in preparation for the upcoming fall season. Both Division One and Two teams have a full slate of matches beginning August 21 for Division Two and August 28 for Division One. The Division Three/Development Side will play matches against the same opponents as the Division Two side.

# GLENDALE WOMEN RAPTORS

**The Glendale Women Raptors** finished the spring 2010 season with a win loss record of 3-3. The spring season ended with high hopes for the fall when coach, Lisa Rosen, arrives. After a season with guest coaches, Glendale is looking forward to stable practices and a head coach that will guide them to Nationals in November. However, the spring was used more as a rebuilding season than competitive. Eleven new members joined the Raptors, eight of them being brand new to the sport of rugby. Recruitment efforts were heavily needed as many long time Raptors have retired or moved out of Colorado. Glendale matched up with local rivals, as well as East and West coast teams. Each game was completely different but a lot of playing time was given to the rookies, which is important to keep growing the team.
